## OFFICE OF THE STATE TREASURER

To Governor Guinn, Members of the Legislature and Citizens of Nevada

**Brian K. Krolicki**  
State Treasurer

It is my pleasure to submit to you the Office of the State Treasurer's Annual Report for fiscal year 2004. The State Treasurer's office is responsible for the management of billions of dollars in financial transactions conducted on behalf of the State and local governments, including most investment, cash management and debt management activities. In addition, the State Treasurer operates investment programs for all available state funds, including the General Investment Portfolio and the Local Government Investment Pool.

As State Treasurer, I chair the Nevada Prepaid Tuition Program and the Nevada College Savings Plans, and serve as the Administrator of the Millennium Scholarship Program and the Unclaimed Property Program. Additionally, the State Treasurer is a member of the State Board of Finance and the Executive Branch Audit Committee, and chairman and president of the Nevada Real Property Corporation. The office also administers the Municipal Bond Bank and the funds for the Trust Fund for Public Health and the Fund for a Healthy Nevada.

During fiscal year 2004, the interest earnings on the General Portfolio totaled more than \$21.8 million for the fiscal year. Total assets under management by the Treasurer's Office are approximately \$2.27 billion. The State Treasurer's Office also directed the issuance of more than \$170 million in debt securities, bringing the total of debt managed by this office to almost \$2.1 billion.

In fiscal year 2004, the number of payments made by check, ACH or wire and distributed by the State Treasurer's Office was 577,109 and the number of checks and electronic funds deposited totaled 2,658,851. Through an automatic redeposit of checks initially returned due to non-sufficient funds, returned checks have decreased by over 63% in fiscal year 2004. This office continues to aggressively pursue new and superior cash management techniques.

The Millennium Scholarship Program has completed its fourth full year of providing scholarships to eligible students. Almost two-thirds of those eligible are taking advantage of the scholarship, with more than 15,000 students currently enrolled in a UCCSN community college or university as a Millennium Scholar. The combined graduating classes of 2000-2004 include more than 40,000 eligible scholars.

The Nevada Prepaid Tuition Program is in its sixth year of operation, with more than 10,500 young Nevadans enrolled and almost \$63.5 million invested on their behalf. The office continues its partnership with Upromise Investments, Inc. to provide the manage Nevada's college savings programs. The Upromise College Fund 529 Plan has been rated among the top three programs in the nation by CNN Money and *Kiplinger's* personal finance magazine for using low-cost Vanguard funds and offering a strong range of investment options. The innovative plan also allows members to earn even more money for college through the Upromise Loyalty Service, which provides cash rewards for the products Nevadans buy every day. As of June 30, 2004, 137,101 accounts have been opened with almost \$845 million in assets under management.

The Unclaimed Property Program, which is responsible for reuniting residents and businesses with their lost or abandoned property, returned nearly \$7 million to the rightful owners and heirs during the past fiscal year. The office also collected over \$28 million, and is currently holding approximately \$146 million in unclaimed property.

On the national level, during fiscal year 2004, I had the honor of being elected by my colleagues across the nation as president of the National Association of State Treasurers (NAST). As president, I founded the Committee on Corporate Governance to leverage the more than \$1.1 trillion in assets that state treasurers directly control or oversee to encourage corporations to adopt best business practices and internal governance procedures. In early 2004, I was selected by my colleagues to receive the Jesse Unruh Award, given to the nation's most outstanding state treasurer. My work on behalf of NAST, and my commitment to improving corporate governance, led to my being nominated earlier this year for a seat on the New York Stock Exchange's Board of Directors.

I must again acknowledge my office's dedicated and skilled staff for the many achievements during the past year. I am both proud and fortunate to have them as part of my administration.

Respectfully submitted,

Brian K. Krolicki  
State Treasurer

# **2004 ANNUAL REPORT**

## **STATE OF NEVADA OFFICE OF THE STATE TREASURER**

### **ROLE OF THE STATE TREASURER**

The office of State Treasurer was created in 1864, under Article V, Section 19, of the Constitution of the State of Nevada. The State Treasurer is elected to a four-year term.

The general responsibilities of the State Treasurer include:

- Receive, receipt and safeguard all money of the state, which is not expressly required by law to be received and kept by some other person;
- Disburse the public money under warrants drawn upon the Treasury by the State Controller and not otherwise;
- Establish and operate investment programs for all available state funds which include, but are not limited to, the General Investment Portfolio, the Local Government Investment Pool, Prepaid Tuition Program, Millennium Scholarship Program and the Permanent School Fund;
- Issuance of any obligation authorized on behalf and in the name of the state (with few exceptions), and to serve as the primary representative of the state in matters related thereto.

Additional responsibilities of the State Treasurer include:

- Member of the State Board of Finance;
- Ex-Officio State Disbursing Office for the Federal Government;
- Administrator of the Municipal Bond Bank;
- Chairman of the Board of Trustees of the College Savings Plans of Nevada;
- Administrator of the America's College Savings Plan and Trust Fund;
- Administrator of the Nevada Prepaid Tuition Program and Trust Fund;
- Administrator of the Fund for a Healthy Nevada and the Trust Fund for Public Health;
- Member of the Executive Branch Audit Committee;
- Chairman and President of Nevada Real Property Corporation;
- Administrator of Nevada Unclaimed Property Division.

#### Percentage of earnings from Securities Lending activities to total earnings

2000	1.150%
2001	0.671%
2002	1.964%
2003	3.542%
2004	4.242%

Securities Lending is the temporary loan of a security from an institutional investor's portfolio to a broker/dealer or dealer bank to support that firm's trading activities. These trading activities include short selling, selling on margin or the satisfaction of some other type of transaction. Loaned securities are generally collateralized, thereby reducing the lender's credit exposure to the borrower. Except for the right to vote proxies, the lender retains entitlement to all the benefits of owning the original securities, including the receipt of dividends and interest. Additionally, the lender receives a fee for the use of the securities and can reinvest the collateral. The lender, however, bears the market risk of the loaned securities. This is due to the borrower being obligated to ultimately return the securities, not the original market value of the securities, at the time the loan was made.

Lendable securities include U.S. government and agency bonds, U.S. and foreign equities, U.S. corporate and Eurobonds, foreign government bonds, asset backed and mortgage backed securities.

N/A - Separately stated securities lending earnings are not available for the periods indicated.

## **EDUCATION PROGRAM SUMMARY**

The Office of the State Treasurer administers three education programs:

- Millennium Scholarship Program
- Upromise College Fund 529 Plan
- Nevada Prepaid Tuition Program

In 1999, 40% of Nevada's Master Settlement Agreement tobacco payments were dedicated to fund the Millennium Scholarship Program. This program provides up to \$10,000 to a Nevada high school student who graduates with at least a 3.0 grade point average (GPA). The 2003 Legislature approved increasing the GPA to 3.1 for the classes of 2005 and 2006, and a GPA of 3.25 for the class of 2007 and later. Students must have been a resident of Nevada for at least two of their high school years. There is no application form for the student to complete. The school district will submit the student's name to the Millennium Scholarship Office if the student is eligible.

By the end of fiscal year 2004, more than 40,000 graduating high school seniors had become eligible for the Millennium Scholarship. The following program trends have been noted by the State Treasurer's office: each year more high school graduates become eligible for the scholarship and a higher percentage chooses to use it; more scholars are utilizing the scholarship than originally anticipated; the UCCSN has reported an increase in the go-to-college rate and a decrease in the percentage of Nevada's students attending college out of state; two-thirds of Millennium Scholars attend a university; and by the end of spring 2004, 420 Millennium Scholars had earned Bachelor's degrees and 362 had earned Associate degrees.

The State Treasurer also administers two types of qualified 529 plans: the Nevada Prepaid Tuition Program and the Nevada 529 College Savings Plans as authorized by 26 U.S.C. § 529. The Nevada Prepaid Tuition Program started in 1998 and continues to offer a smart option to Nevada residents (or graduates of the University and Community College System of Nevada). This plan allows a Nevadan to lock in the cost of tomorrow's tuition at today's rates. It functions more like an insurance policy protecting against future college tuition increases. Over 10,500 children are enrolled in this Program and the Nevada Higher Education Tuition Trust Fund has \$63,498,340 in assets as of June 30, 2004.

The State Treasurer contracted with Upromise to manage Nevada's college savings program in 2002. The State Treasurer was impressed with the benefits and value-added features Upromise Investments, Inc. offered in the 529 college savings market and contracted with them to manage and enhance the program. As an Internal Revenue Code 529 college savings program, earnings in the account grows tax-free, helping the savings grow faster and allowing more money to go towards paying for college rather than paying for taxes. The Economic Growth and Tax Reconciliation Relief Act of 2001 provided that earnings grow tax-free and the withdrawals for qualified education expenses are also tax-free. There are additional unique estate and gift tax planning advantages. Any person may open a 529 college savings account and contribute as little as \$50 per month or as much as \$250,000. These funds may be used for any qualified education expenses at any eligible school in the country, including two and four year colleges, technical and trade schools and even graduate school.

As of June 30, 2004, 137,101 accounts were opened with \$844,934,621 in assets under management. The college savings program offers a variety of market-based savings options. Each portfolio has a different allocation of stock, bond and money market funds. The purchaser selects a portfolio depending on their own risk tolerance and the amount of time until the child enters college. The Upromise College Fund offers eight Vanguard fixed allocation portfolios and three aged-based tracks which automatically adjust the investments to more conservative portfolios as the child nears enrollment in college. Upromise acts as program manager for the direct sold products, including the Upromise College Fund, The Vanguard 529 College Savings Plan, the USAA 529 College Savings Plan and for the advisor sold product, The Columbia/Fleet 529 College Savings Plan. All these products together are called the Nevada 529 College Savings Plans.

# NEVADA MILLENNIUM SCHOLARSHIP PROGRAM

The Millennium Scholarship Program has completed its fourth full year of identifying, contacting and assisting Millennium Scholars. Thanks to the cooperative effort of numerous Nevada educators, agencies and institutions, the fourth class of Millennium Scholars has been enrolled and educated by eight eligible institutions utilizing Millennium Scholarship funds. Under the direction of State Treasurer Brian K. Krolicki, the program has been further developed and strengthened. In November 2003 informational mailings were sent to approximately 20,000 Nevada high school seniors regarding the Millennium Scholarship Program. The combined graduating classes of 2000, 2001, 2002, 2003 and 2004 include more than 40,000 eligible Millennium Scholars.

The mission statement of the Millennium Scholarship Program is “To provide service to the public that consistently exceeds expectations.” The primary tasks completed by the Office of the State Treasurer, Millennium Scholarship Program include:

- Enhancements to INSTEP, the database which stores eligibility information for the 40,000 eligible Millennium Scholars;
- Collection of eligibility data from the 17 county school districts, 39 private high schools, adult education, GED, and home school applicants for the class of 2004;
- Cooperative planning with representatives of each UCCSN institution, UCCSN System Administration, UCCSN System Computing Services, the Millennium Scholarship Advisory Committee, the Nevada Association of School Superintendents, the Leadership Forum of High School Counselors, and the Nevada Department of Education;
- Dissemination of public information to all Nevada high school seniors of the class of 2004, high school counselors, UCCSN institutions, and the general public;
- Cooperative development with Millennium Scholarship Advisory committee and UCCSN System Computing Services of a system-wide review process for balance irregularities;
- Completion of an annual informal record check of data submitted by Nevada public and private school districts (in cooperation with UCCSN).

## STATE OF NEVADA OFFICE OF STATE TREASURER

### FUND FOR HEALTHY NEVADA TRUST FUND FOR PUBLIC HEALTH

During the 1999 session, the Nevada Legislature approved two bills, Assembly Bill 474 and Senate Bill 496, which determined how the money received by the state of Nevada from the Tobacco Master Settlement Agreement (MSA) would be distributed. Following the disbursement of funds for several one-time expenditures, tobacco settlement money received by Nevada will be distributed as follows: **Fifty percent to the Fund for Healthy Nevada; forty percent to the Millennium Scholarship Program; and ten percent to the Trust Fund for Public Health.**

The MSA refers to the agreement reached on November 23, 1998, by virtually all states and the major tobacco companies in the United States, ending litigation on the issue of the liability of the tobacco companies for damages caused to states by cigarette smoking.

In fiscal year 2004, Nevada received \$37.7 million, 8.9% below the amount originally estimated as Nevada's portion of the MSA. In addition, Nevada received \$595,871 from settled disputes over prior years' payment calculations.

As administrator of these funds, the State Treasurer's responsibilities include: maintaining the financial records of the funds; investing the money in the trust fund as the money in other state funds is invested; managing any account associated with the funds; maintaining any instruments that evidence investments made with the money in the funds; contracting with vendors for any good or service that is necessary to carry out the provisions of this section; and performing any other duties necessary to administer the funds.

NRS 439.625 created the Task Force for the Fund for a Healthy Nevada as the decision making body of the Fund. NRS 439.630 limits the amount of funds allocated for direct expenditure as follows: Not more than 20% for programs that prevent, reduce or treat the use of tobacco and the consequences of the use of tobacco; and not more than 20% for programs that improve health services for children and the health and well-being of persons with disabilities; not more than 30% for the Senior Rx program; and not more than 30% to assist senior citizens with independent living.

NRS 439.610 created a Board of Trustees as the oversight entity for the Trust Fund for Public Health. NRS 439.605(6) allows only the earnings of the fund to be expended to support projects in the following areas: Promotion of public health and programs for disease or illness prevention; research on issues related to public health; and provisions of direct health care services to children and senior citizens.

## Unclaimed Property

The Unclaimed Property program has the responsibility of reuniting residents and businesses across the state of Nevada, and from around the globe, with their abandoned property. Companies and governmental agencies are required to submit annual holder's reports and turn over unclaimed assets as required in NRS 120A. These assets include payroll, accounts payable and refund checks, utility deposits, gift certificates, dividend checks, items left in safe deposit boxes, and other items as specified in statute. The statute also provides the time frames for reporting each type of abandoned property. The rightful owners never lose the right to make a claim for the asset (or value of items sold) that is in custody of the Unclaimed Property program. With collections of over \$28 million and nearly \$7 million returned to owners during the fiscal year, the State is currently holding approximately \$146 million in unclaimed property.

Voluntary compliance accounts for approximately 72% of all collections, 25% from contracted firms and 3% from staff auditors. Unclaimed Property has a total of eight staff members – a deputy treasurer, three auditors and four administrative personnel. The auditors completed several complex audits during fiscal year 2004, which accounted for almost \$1.5 million in additional revenues. The auditees included municipalities, casinos, temporary employment agencies, hospitals and financial institutions.

Public notices are published twice per year in the State's principal newspapers identifying owners of property whose assets have been turned over to the state during the prior twelve months. Unclaimed Property has maintained a website since 1997 that allows individuals to search a database of abandoned property and submit claims electronically. Additionally, the National Association of Unclaimed Property Administrators (NAUPA) maintains a website that provides a link to each state's unclaimed property database.

As provided by statute, the office is required to auction items obtained through dormant safe deposit boxes after holding the property for one year. The office then has one year in which to auction the unclaimed property. The State Treasurer's office held a successful online auction using eBay during fiscal year 2004, and will continue to supplement live auctions using the eBay site to reach even larger audiences.

## SILICOSIS AND DISABLED PENSION FUND

In accordance with Nevada Revised Statute (NRS) 617.1675, the State Treasurer has been assigned the responsibility of administering the Silicosis and Disabled Pension fund.

Silicosis, one of the oldest occupational diseases, still kills thousands of people every year, everywhere in the world. It is an incurable lung disease caused by inhalation of dust containing free crystalline silica. It is irreversible and, moreover, the disease progresses even when exposure stops. Extremely high exposures are associated with much shorter latency and more rapid disease progression.

Silica dust is released during operations in which rocks, sand, concrete and some ores are crushed or broken. Work in mines, quarries, foundries, and construction sites, in the manufacture of glass, ceramics, and abrasive powders, and in masonry workshops is particularly risky.

The State provides certain benefits to diagnosed employees, their dependents, widows, widowers, surviving children or surviving parents.

## LOCAL GOVERNMENT INVESTMENT POOL

In accordance with Nevada Revised Statute (NRS) 355.167, any local government, as defined by NRS 354.474, may deposit money into the State Treasurer's Local Government Investment Pool (LGIP) for the purpose of investment. As well as providing local government participants a safe and convenient method of investment, the LGIP also offers the following benefits:

- a. No minimum or maximum size of accounts;
- b. Multiple accounts may be maintained for accounting purposes;
- c. No transaction size limitation for deposit or withdrawal of money;
- d. No restriction on length of time money is deposited.

In addition to investing assets in the LGIP as prescribed by law, with regular oversight provided by the State Board of Finance, the State Treasurer has determined that the investment activities should be further controlled by an investment policy set forth by the State Treasurer and approved by the State Board of Finance. The recognition of the fiduciary responsibility of the State Treasurer and the State Board of Finance has advanced the development of this investment policy and the administration of the LGIP investment program. The purpose of this policy is to establish the guidelines that will govern the investment activities of the State Treasurer with regard to the management of the LGIP. This policy will ensure the prudent investment of the LGIP, adherence to NRS applicable to the investment of public funds, maintenance of daily liquidity requirements, anticipation of future cash needs, and realization of a competitive benchmark rate of return.

The State Treasurer, in accordance with the provisions of NRS 355.170 and his investment policy, is authorized to invest money (within certain additional restrictive guidelines) in:

- a. Asset-Backed Securities (ABS);
- b. Bankers' Acceptances;
- c. Collateralized Mortgage Obligations;
- d. Commercial Paper;
- e. Corporate Notes;
- f. Money Market Mutual Funds;
- g. Negotiable Certificates of Deposit;
- h. Repurchase Agreements;
- i. Student Loan Marketing Association;
- j. United States Treasury Bills, Notes, and Bonds;
- k. United States Government Agency Securities.

In FY02, the State Treasurer's Office received its first deposit under the newly authorized (NRS 355.165) Local Government Pooled Long-Term Investment Account program, known as NVEST. As an alternative to the LGIP, NVEST is designed to increase yields by accepting large (\$5 million minimum), extended term (minimum one year commitment) deposits for investment. Members are offered three portfolio structures based on duration of investment. These accounts are not commingled and are managed by a registered investment advisor and financial management firms. Similar to the LGIP, authorized investments are governed by NRS 355.170.
